

PARKADE.IO

We are "changing the way the world parks."

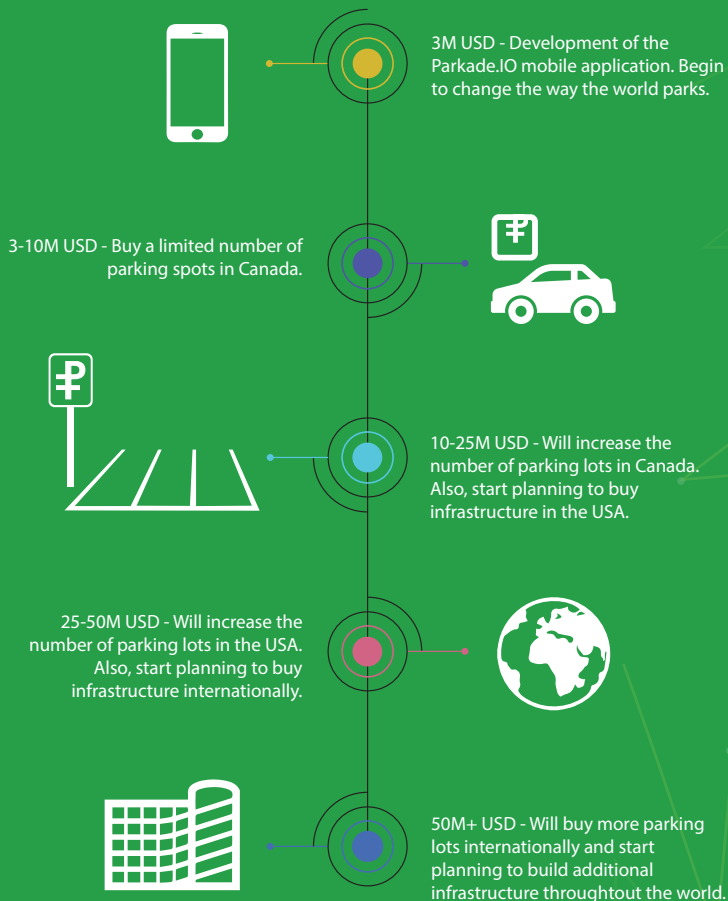

VIK KWATRA | FOUNDER

I am a business owner with over 10 years of progressive, professional management experience. Having grown a successful investment, development and home building company, I have developed and planned over 6,000,000 square feet of commercial and residential properties over the past decade.

PARKADE COIN COMMUNITY BENCHMARKS

We are looking to create a strong and connected Parkade Coin community. As a result, we intend to offer the following rewards to investors upon reaching any of the thresholds.

PARKADE.IO

- In total, 400 million Parkade Coins will be created. 60% of the tokens created will be offered to investors in the ICO.
- The initial price per Parkade Coin will be set to \$0.50 USD for 1 PRKC.
- As a result of the scope of plan, a minimum of \$3,000,000 USD must be generated in order to execute the basic starting point of the business strategy, by completing the PARKADE.IO mobile application.
- A hard cap of \$120,000,000 USD has been established. This number is derived by multiplying the 240 Million PRKC by the price of \$0.50 USD.
- 100% of the net proceeds of the ICO will be invested into parking spots, lots and parkades. Parkade Coin holders will have the right to participate in profits generated by assets owned by the company and benefit from stable price appreciation.

DISTRIBUTION OF PROCEEDS

- 80% Purchase Infrastructure & Hardware
- 2.5% Mobile Application Development
- 5% Transaction and Legal
- 7.5% Development and Staffing
- 5% Marketing
